Master's by Research Position Available

Deep Learning / Machine Learning Project

We are looking for 1 Master's student (full-time, by research) to join a funded research project

🎯 Focus Areas:

- Deep Learning / Machine Learning
- Computer Vision & Infrared Imaging
- Human Behaviour Monitoring / AI for Safety
- Opportunity to publish and present research paper

🎓 Requirements:

- Bachelor's in Engineering, Computer Science, or equivalent
- Good programming skills (Python preferred)
- Interest in AI / ML / Vision-related research
- Open to local & international candidates (including Indonesia)

💰 Financial Information:

- **Monthly Allowance:** Up to RM2,000/month *(based on research progress and milestone achievements)*
- **Tuition Fees**: Not directly covered by the grant
- **Registration Fee: First semester fee ~RM8,390** (Refer UMPSA Bursary for latest information) must be **self-funded upfront**
- **Payment Processing**: Student must prepare for **1–2 months without allowance**, while paperwork is being processed

Research Profile
